Numerous unpaid collections and/or accounts that are not being paid timely, including some which have been outstanding for many years, then once the borrower has satisfied the obligations, and then makes timely payments on subsequent obligations for at least 12 months, satisfactory credit is considered re-established. Ultimately, it is the underwriter's discretion to review the borrower's entire credit history along with other layered risk on the loan.
SATISFIED (VA DEFINITION)	The credit item was paid off in full or the borrower has been on a payment plan and has made at least 12 months of satisfactory payments.
COLLECTION ACCOUNTS	No collections opened in the last 24 months, unless deemed isolated and/or circumstance beyond the borrower's control that can be documented. Isolated collection accounts do not necessarily have to be paid off as a condition for loan approval. A credit report may show numerous satisfactory traditional credit accts and 1 or 2 unpaid medical (or other) collections. In such instances, while it would be preferable to have collections paid, it would not necessarily be a requirement for loan approval.
